- Records vehicle data with audio and video evidence
- Optional Infra-Red, 10x/120x or 35x/350x zoom cameras
- 900 MHz wireless microphone (international 800 MHz available)
- VideoManager™ management/playback/duplication software

Made In The USA Traded on NASDAQ 'DGLY'

The DV-500 Ultra utilizes the proven technology of the DVM-500 Plus In-Car Video System to bring you the same powerful features and reliability. Two control/monitor options to choose from:

- Compact, waterproof & durable
- Backlit buttons & LEDs
- Multiple mounting options
- Built-in speaker

Option 1

A 3.5" Color External Waterproof Monitor with full feature controls
Body dimensions: 4.92" x 3.94"

Option 2

An external waterproof module with basic functions and no monitor
Body: 2.5" x 1.5"

The DV-500 includes a fully functional DVM-500 Plus module with all standard features and built-in ultra bright monitor. It has been designed without the mirror glass for more diverse applications. A variety of mounts are available for saddlebag, trunk/radio box, or other hidden & secure mounting.
