

Corporate Capabilities Overview

Mil-Parts Corporation – Ground Vehicle Developments, Rebuilds/Upgrades, Spare Parts and Quality Services

- Mil-Parts has been in the military automotive business since 1978 and has earned worldwide respect and a great reputation as a solution provider, procurement, distribution and manufacturing supplier of military spare and repair parts for most originally fabricated US military vehicles and legacy equipment to the Taiwan armed forces, OEMs and other Defense/Homeland Security Forces around the globe.

- Mil-Parts is fully committed to delivering innovative subsystems and quality services that exceed customers' expectations. One of these examples was successfully supplying hardware and engineering support to Taiwan military that indigenously developed Cloud Leopard 8x8 combat vehicle.

- Mil-Parts serves the customers from the corporate headquarters in Taipei City, and quality approved manufacturing network within Taiwan. The company maintains global sourcing management and industrial facilities for fabricating, assembly, inventory, storage, inspection, painting, packaging and shipping in Taiwan.
