

Rebuild and Upgrade

Mil-Parts' vehicle rebuilds/upgrades contain everything necessary for a complete installation: new/rebuilt engine, radiators and intake/exhaust; instrument panel, as well as an electrical system including all harnesses, driving lights and turn signals. New/rebuilt automatic transmissions are also available. Brackets, mounts and fasteners complete the package. Rebuild packages and upgrade kits make possible to obsolete vehicles to active service for another 20 years and more.

- Vehicle Rebuilds and Upgrades: M60s, M113s, CM21s, V100, V150(S)
- System Rebuilds and Upgrades: Engine, Transmission, Cooling, Electrical, Suspension, Armor Steel/Aluminum Hull, APU, Tires and Run Flats
